THE UPGRADE FOR YOUR LOGISTICS.

Customised. Flexible. Fast.

WORLDWIDE SHIPPING. WORLDWIDE SUCCESS.

COMPANY PURPOSE

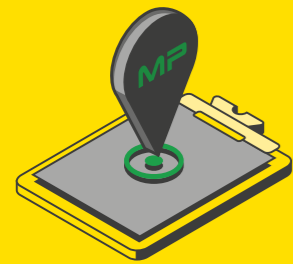

WE TRANSPORT GOODS ANYWHERE IN THE WORLD AND MAKE THE IMPOSSIBLE POSSIBLE. WE GIVE 110% AROUND THE CLOCK TO CONNECT OUR CUSTOMERS AND THEIR GOODS WITH THE REST OF THE WORLD, USING FAST, CUSTOMISED, RELIABLE SOLUTIONS.

WE
CONNECT
THE
WORLD.

WE ARE MP LOGISTIK

YOUNG, MOTIVATED, SUCCESS-DRIVEN AND CUSTOMER-FOCUSED.

With around ten years of market experience and a wide logistics network with three locations, we can always be found just where our customers need us. From the very beginning, we've been sitting down with our customers to develop successful customised cargo logistics solutions. Our company in figures:

CARGO COLLECTION THROUGHOUT GERMANY

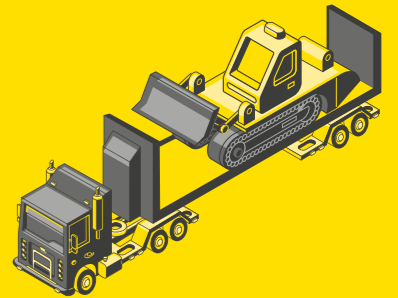

With our express service we'll collect your cargo anywhere in Germany within 90 minutes.

ROAD, SEA, AIR, RAIL

FLEXIBILITY ALL ALONG THE LINE

To devise the optimal logistics solution for your needs, we specialise in several logistics segments, including sea and airfreight, rail shipments as well as oversized-cargo, extra-long and heavy-load logistics.

350

MP FLEET

We coordinate over 350 trucks Europe-wide every day. To get your shipments to their destination as fast as possible, our vehicle fleet includes everything from Caddy panel vans to 40-tonne trucks, selected to meet your exacting requirements. To make sure your cargo arrives safely, all vehicles are regularly maintained and the carriers are fully insured. On long routes, we use two drivers on request to meet your deadlines and fulfill the statutory driving times and rest periods.

OUR MISSION

AS A STRONG PARTNER, WE OPTIMISE OUR CUSTOMERS' CORE BUSINESS IN RESPONSE TO THE INCREASING GLOBALISATION OF TRADE. WE'RE THERE WHEREVER YOU NEED US: NOW AND IN THE FUTURE, DIGITALLY AND PERSONALLY, ALWAYS AS A DEPENDABLE PARTNER.

Company founder and Managing Director
Michael Profanowicz

OUR APPROACH

WE STRIKE OUT ON NEW PATHS. WE'RE ANYTHING BUT STANDARD. BETTER.

Our company structure is tailored to high flexibility and we always respond fully to your individual requirements once you place an order with us. You benefit from the ease of conveying orders and special order requirements over the phone, electronically or in person.

+ CUSTOMISED.

One-stop full-service solution: following an extensive consultation, we devise a customised logistics concept for you. Once you place the order, you can sit back and relax. Your personal contact will sort out the entire project and keep you up to speed on all the key steps.

Your personal contact sorts out everything.

+ FLEXIBLE.

Thanks to our extensive partner and logistics network with three permanent MP Logistics locations in Germany, we can process any order flexibly according to your wishes. We're on hand around the clock for any queries or interim reports.

+ FAST.

We stand out not just with our wide-ranging service portfolio, but also with our many years of experience in the market. We act dynamically and quickly according to your requirements, always on hand as a reliable, strong logistics partner.

Always ready for cargo collection throughout Europe within 24 hours

MP EXPRESS LOGISTICS

ORDER PLACED, ORDER FULFILLED.

As your trusted logistics provider, we share direct responsibility for your market success. That's why we constantly optimise our processes so we can respond even faster to deliver your important, urgent and sensitive goods on time. We find solutions when supply bottlenecks, for instance, threaten to shut down your customer's production. Our customers value our work motto: order placed means order fulfilled.

SHORT DECISION-MAKING PATHS, FASTER DELIVERY.

As an owner-run company, we benefit from short decision-making paths, efficient interfaces and clear responsibilities. It takes us no more than 90 minutes throughout Germany to collect the cargo once we've received your express order. All thanks to our powerful network of trained drivers and state-of-the-art vehicles across Germany, which pick up your orders locally.

We will also of course collect your express shipments anywhere in Europe and deliver them. To help us do this, we have a close network of express logistics partners across the continent. Direct shipments without trans-shipment and a single point of contact as well as constant shipment tracking are just a few of your advantages. We are already the preferred logistics provider for many leading manufacturers and suppliers in the automotive, packaging and wind power industries. We will gladly provide you with references on request.

OK, ADMITTEDLY WE'RE NEVER GOING TO REACH THE SPEED OF LIGHT, BUT WE'RE GETTING THERE.

MP NATIONAL AND INTERNATIONAL
PART AND FULL LOAD

OUR ULTIMATE PROMISE TO YOU: YOU LOOK AFTER YOUR CORE BUSINESS, WE DO THE REST.

We process import/export shipments for you nationally and internationally, including all kinds of part and full loads on pallets, in big bags or as loose items. Depending on the cargo size, we use the right vehicle from Caddy panel vans to 40-tonne trucks.

Viktor Kovjazin, disposition manager

YOUR GOODS DELIVERED WITH A CUSTOMISED, FLEXIBLE AND FAST SERVICE THROUGHOUT GERMANY.

Our fleet operates around the clock across Germany to deliver your custom shipments. Part and full shipments as well as express shipments are possible as part of our national transport solutions. Shipments can also be delivered at specified times. We also deliver to Germany's North Sea and Baltic Sea islands.

Special orders such as construction site deliveries or delivery with a tail lift/truck-mounted forklift including transfer of the cargo are part of our daily business. Thanks to the fact that there is no trans-shipment of the goods during transport, the risk of damage is virtually eliminated. Handling major projects at short notice is no problem for our experienced team either.

Your goods are our most valuable asset: delivery with a tail lift including transfer of the goods is part of our daily business.

OPTIMUM NETWORK FOR INTERNATIONAL PART AND FULL LOADS OR EXPRESS SHIPMENTS. OVER LAND AND SEA.

In Europe, we have access to a wide-ranging partner network that allows us to handle shipping orders fast, flexibly and reliably. In the north of Europe, we use Copenhagen, Padborg, Stockholm, Gothenburg, Oslo and Helsinki as hubs. We also cooperate with partners that have the expertise to handle even the harshest winters. And when using water routes, we can always obtain capacity on ferry and bridge links within a short time frame, especially to the United Kingdom.

Contracts with our logistics partners guarantee we have the ferry capacity we need so your shipment gets to its destination as fast as possible. That way, we can get your complete load to the consignee within two days, and in under three days for partial loads. We also offer 24-hour delivery for very urgent shipments. Including to Ireland of course.

We'll also handle major projects for you.

Anywhere on the French mainland within 24 hours; complete loads to anywhere in the UK within two days, or urgent shipments even within a day.

WE'LL GET YOUR GOODS RELIABLY, SAFELY AND COST-EFFECTIVELY TO THEIR DESTINATION. EVEN WITHOUT TRANS-SHIPMENT.

Particularly when your load does not fill a complete truck, we can provide regular departures by intelligently combining various partial loads to ensure your cargo gets to its destination fast. We offer various specific options to guarantee the safe shipment of your partial load:

- ✓ DIRECT SHIPMENTS
- ✓ PARTIAL LOAD WITHOUT TRANS-SHIPMENT
- ✓ DELIVERY WITH TAIL LIFT
- ✓ INTERMODAL SHIPMENTS

Mega trailer with tail lift: load capacity of the tail lift up to two tonnes

We also provide inter-modal shipments:

SERVICE EXTRAS THANKS TO IN-COUNTRY EXPERTISE

Quick and easy cargo deliveries: our staff come from the particular import country and their language skills and extensive country and commercial experience will help make sure your business succeeds. We'll gladly sort out the shipment documents and customs formalities for you, and handle everything directly with the consignee.

SPECIAL SHIPMENTS ALSO OUTSIDE THE EU

Shipments outside the EU call for specialist know-how that goes beyond simply being able to speak the language: laws, customs tariffs and import taxes need to be taken into account. We'll gladly look after the whole process for you.

WE ARE ADR-CERTIFIED

HAZARDOUS GOODS? NO PROBLEM.

We assume responsibility for handling your hazardous goods properly, making sure they get to their destination quickly and safely. To make this happen, our drivers undergo regular training and the vehicles are equipped to the highest quality standards. We are conscious of the particular responsibility we have for our staff and customers.

That's why our vehicles are equipped according to the legal requirements. We comply with constantly changing hazardous goods legislation. That way, it's almost certain your loaded cargo won't be damaged.

All refrigerated shipments as per EU Regulations (EC) 178/2002 and 37/2005

REFRIGERATED SHIPMENTS

When it comes to logistics, flexibility is among the key criteria. That's why we use the right refrigerated vehicle for every refrigerated consignment. To guarantee an unbroken cool chain as per EU Regulations (EC) 178/2002 and 37/2005, all our vehicles are fitted with a temperature recorder. So you can rest assured your goods will reach their destination in perfect condition.

MP SEA FREIGHT

STANDING STILL IS MOVING BACKWARDS. WE WANT TO MOVE MORE: OVER WATER, AIR AND LAND. FOR OUR CUSTOMERS, PARTNERS AND EMPLOYEES.

Whether it's import or export, break bulk, full containers or a conventional load: we can collect and deliver your shipment anywhere in the world. MP Logistik has specialists that can manage your entire sea freight shipment to and from all the world's business centres. Each of your shipments, whether big or small, receives the same attention. We coordinate your sea freight shipment from origin to destination and partner you to make sure your goods cover long distances quickly and reliably.

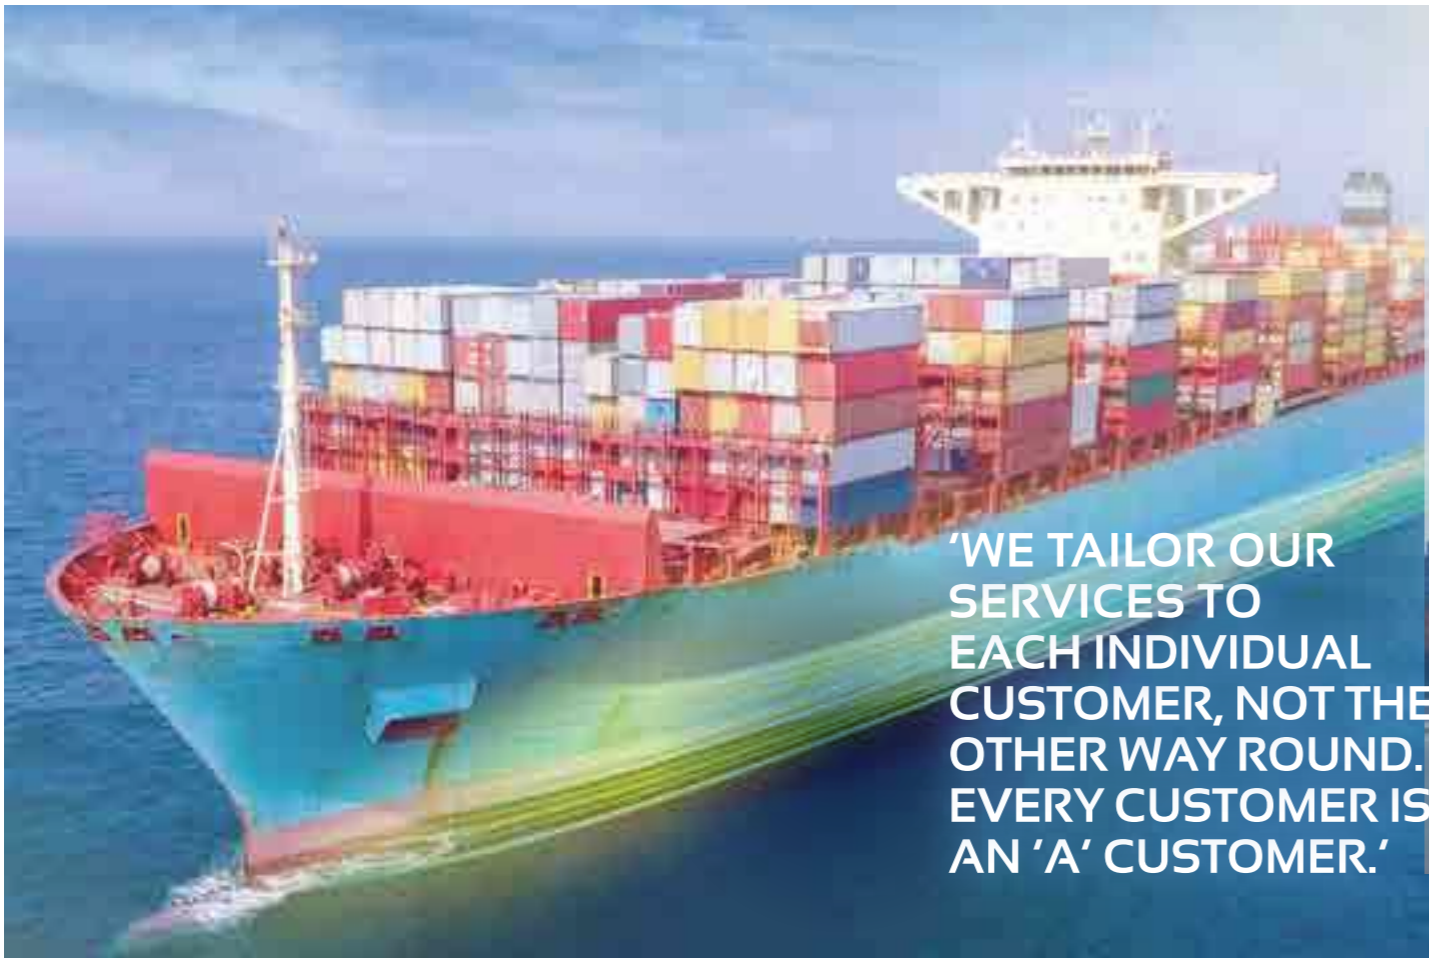

COMBINED SHIPMENT SOLUTIONS

Combined transport makes getting your cargo to its destination cheaper and more efficient. And you can benefit from these advantages particularly where large volumes or long transport routes are involved. We collect your cargo from the inland port or freight yard and get it on the road. Apart from secure delivery, we also pack and pick. Using state-of-the-art equipment and a perfectly maintained fleet our experienced logistics specialists and truck drivers complete your order on time and reliably, supported by cutting-edge information and communication technology.

OUR CONVICTION

WITH INNOVATIVE SOLUTIONS, MP LOGISTIK HELPS SOLVE CLASSIC LOGISTICS CHALLENGES BOTH NOW AND IN THE FUTURE AND OPEN UP NEW BUSINESS OPPORTUNITIES.

'Our expertise, collaboration based on trust and close coordination with our customers are factors that, today more than ever, give us a competitive advantage. We need to

get our customers on board, interact sensitively with them, listen to them, and deliver what they want. Our customers want to be advised, feel understood, and build up mutual trust with their partners. Purely digital businesses struggle to meet these customer needs though. You need to know the business inside out to perform well. And algorithms that aggregate and connect data help very little in this respect. That's why our motto is to remain true to classic values and to also digitalise efficiently and healthily.

The theme of digitisation in particular opens up entirely new possibilities for us and our customers: possibilities that we are developing and promoting over the short and medium term. At present we're implementing a web-based transport management platform with a personalised customer dashboard for shipment enquiries and shipment bookings. We're working on customer interfaces, location tracking in real time as well as the option of life-cycle assessment measurement and many other tools that allow us to further optimise your core business and help shape and define the future of transport logistics.'

MP WAREHOUSING

FULL SERVICE AND EFFICIENT LOGISTICS ON DEMAND.

Excess inventory will soon be a thing of the past thanks to MP Logistik warehousing. We will gladly act as your storage location with all the associated services such as trans-shipment, put-away/retrieval of goods, packing, picking, logistics information processing and holistic supply chain solutions. These services make your logistics more efficient. You can leverage our expertise, our experience and economies of scale to reduce costs by outsourcing part of the work to us.

✓ SAVE TIME AND MONEY

Let us pick up your goods, store them, pack or repack them where necessary and deliver the call-off quantity just in time. We'll look after the entire process for you and will even communicate with the consignee on request. That way, you can flexibly buy in just the amount of service you need without having to set up your own structures.

✓ THEFT- AND FROST-PROOF STORAGE

We integrate warehouse services into the supply chain for procurement and distribution using various picking processes and storage strategies such as FIFO, LIFO or MHD. Our trained warehouse logistics professionals are trained to pack your goods in line with transportation requirements and to rewrap them in foil where the load is split up. Goods are delivered on demand using our own fleet.

We've invested in new modern warehouses for our 11,350 m² storage facility. Our heated warehouses are protected by alarms, have motion sensors, magnetic and bolt contacts. They are also ideal for frost-sensitive and theft-prone goods.

MP PROJECT AND CONTRACT LOGISTICS

PLAN LONG TERM, ACHIEVE GREAT THINGS.

We offer our entire service portfolio as part of project and contract logistics: from pan-European shipment and express logistics to warehousing. The decisive competitive advantage? Our structure as an owner-run business with flat hierarchies enables us to guarantee short paths, rapid communication and reliable contracts. Capitalise on this flexibility.

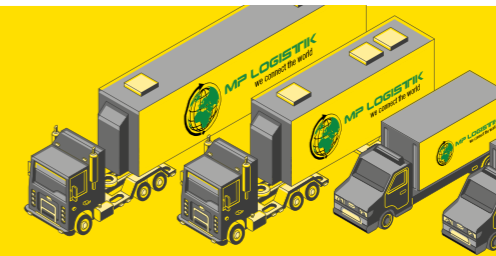

Managing Director Michael Profanowicz talking to a customer

Whatever the size of your project and however short your lead time: we can handle even very large orders at short notice. We can coordinate over 350 trucks daily throughout Europe to meet the required project volumes.

Daily throughout Europe we coordinate over

350 TRUCKS

✓ PRICE CERTAINTY OVER THE ENTIRE CONTRACT DURATION

Contracting specific volumes, direct processing with the consignee and shipping from your local premises form part of our project concept. That way, we guarantee you price certainty throughout the entire contract period. If you do not have the staff available, our shipment experts will also load your cargo and prepare the documentation at your local facility.

✓ CONCEPTS BASED ON PARTNERSHIP FOR LONG-TERM COLLABORATION

Contract logistics helps you improve your competitive position decisively. The enormous business volumes in contract logistics call for a tailor-made solution. That's why our logistics expert will analyse and advise you on all the issues involved and develop a profitable overall concept. Precise coordination takes place with everyone involved: as a contract logistics service provider, we are the link and optimise interfaces to reduce your workload and improve your bottom line.

With an annual growth rate of 20 percent, contract logistics has the largest growth potential of all logistics service segments at present. They constitute a serious alternative to classic TTS logistics (transport, trans-shipment, storage logistics).
